

We're taking action to increase the representation of diverse populations in our research and clinical trials.

Clinical trial enrollment based on subpopulation epidemiology

An inclusive approach to clinical trial design and entry criteria

Increased access and patient-centric education and communication

Engagement with sites and investigators who reach underrepresented patients

Collaboration with and guidance from historically excluded communities

**Seagen Clinical Trial Finder**  
Learn more and find a Seagen trial near you

This trial finder is only for Seagen trials. Patients may also be eligible for other clinical trials. You can find information on other clinical trials at [www.clinicaltrials.gov](http://www.clinicaltrials.gov)
